

The background of the entire page is a photograph of a laboratory setting. In the foreground, a hand is using a pipette to transfer a green liquid into a test tube. The test tube is held in a rack. In the background, there is a large white Erlenmeyer flask and some laboratory equipment. Overlaid on this background is a logo consisting of a large green circle with a white circle inside it. The word 'science' is written in blue lowercase letters in the white circle, and 'scope' is written in white lowercase letters in the green circle. To the right of the green circle, the word 'Science' is written vertically in blue. There are also several blue circles of different sizes connected by a blue line, forming a network-like structure around the central logo.
